SUMMARY

I'm Josh Gomberoff, a hardworking junior developer with strong ability in JavaScript and Ruby, and am equally comfortable in front and back end developing. Coming from a rich education and background in music performance, I offer a unique skill set in team communication and collaboration, and have the experience to thrive both in new unfamiliar situations and under pressure. My passion for software development stems from the same place as my passion for music making: working together with like-minded individuals to create a product whose whole is greater than the sum of its parts.

RECENT EMPLOYMENT HISTORY

Paint Crew Member   May, 2019 – Aug, 2019
Cast & Crew Entertainment Service | Vancouver, BC
- Collaborated with 3 other team members to meet strict project completion deadlines.
- Painted walls and other surfaces using traditional and sprayer methods and worked efficiently to complete jobs within required time frames.
